

**Bazar
Bizar**

OUR STORY

BAZAR BIZAR is designed in Antwerp, made with love in South East Asia (Indonesia) and beyond. All products are hand made by home industry workers and have already ended up in Tulum, Ibiza, Mykonos, Costa Rica, Sydney and all corners of the world. From beach bars to hotels and from design stores to restaurants - the coastal vibes of Bazar Bizar products are taking over the world!

The Belgian interior brand was born out of a lifelong passion for travel and taking home some of the incredibly original design ideas of locals. This supports the local economy and ensures no harm is done to the environment, as Bazar Bizar works directly with these family owned small businesses and oversees the process from production all the way to delivery. Having feet on the ground means having control over not only the quality of the products, but also good working conditions and fair wages for all workers.

All products are made from eco-friendly materials such as water hyacinth, rattan and bamboo. Everything offered by Bazar Bizar is both ecological and fair trade, two important aspects of a truly sustainable brand. And we keep improving ourselves non-stop.

Enjoy our new collection!

MOORE, known for
her "pencil" plant
as a design
element, chose
her exhibition at
the Guggenheim
Museum in New York
in 1965.

CONCRETE
design, as Moore
was said to have
inspired the term
"brutalism."

fell from her overhead locker and on having her vengeance
that she couldn't find a suitable landing. During the time
along one. The result was of course the legendary book bag
launched in 1964, and the most iconic and successful of Herbol
inventions.

Herbol's string of capitalism quickly paid off with sales
growing from \$82 million in 1960 to \$400 million by 1982 and
1980. In June 1981, Herbol took the decision to shut on the
Paris stock exchange, raising 19 per cent of the company's
shares for public sale. It was enough to give the company
and secure her wealth around endowing the company.

Herbol then announced the sale of the company. The move was a
surprise, with much press noting sharply in a move where value
leaves brands and leaves nothing.
