

ELEGANCE - SUSTAINABILITY - UNIQUENESS

2026 Spring Summer Catalogue

Focused On Good Design Since 2011

OUR STORY

A family business shaped by design, curiosity, and care

(Love from Natalie, Amelia, Lewis, and Paul Sun — and everyone at Gingko)

Gingko Design is a family-owned business founded in the UK by Natalie and Paul Sun in 2011. What began as a shared passion for art and design has grown into a business shaped by family life, curiosity, and care.

Design is not something we do alone. Every idea is discussed around the table — with each other, and often with our children involved — whose imagination and honesty continue to inspire the way we think about light, form, and everyday objects. This open, thoughtful approach keeps our designs human, intuitive, and grounded in real life.

We believe good design should be simple yet elegant, sustainable yet enduring. Guided by this philosophy, we create thoughtful, design-led products that balance beauty with function, bringing warmth, calm, and meaning into the home.

Each piece is made using carefully chosen materials and considered details, designed to be lived with over time — objects created with care, designed to last, and shaped for moments that truly matter.

With thanks to our customers, business partners, and friends around the world

CuraCheese Light

Cheesy in Shape,
Comforting in glow.

Cura comes from the idea of care — care in design, care in detail, and care for how objects make us feel.

CuraCheese Light is designed to be playful yet comforting, bringing a gentle, reassuring glow inspired by familiar forms and everyday joy.

Shaped like a piece of cheese and softly diffused, its warm light feels friendly and calming — an object that invites a smile while quietly creating a sense of comfort and ease.

Thoughtfully crafted, CuraCheese Light reflects our belief that good design should not only look beautiful, but also care for the moments we live with it.

Care, expressed through colour and light.

CuraCheese Light is designed to care for the moments when we slow down.

In addition to its warm white glow, the light gently transitions through seven soft RGB colours, moving slowly like waves — never abruptly, never distracting.

This subtle movement of colour creates a soothing atmosphere that helps the mind unwind, making CuraCheese Light especially comforting in the evening. Whether placed by the bedside, on a shelf, or held in the hand, its calm rhythm encourages relaxation, quiet focus, and a sense of ease at the end of the day.

Thoughtfully designed, CuraCheese Light reflects our belief that light can do more than illuminate a space — it can care for how we feel within it.

G082WT (Natural Walnut Wood)

G082AH (Natural White Ash Wood)

Lyra Portable Fan

Timeless cooling,
effortlessly portable.

Lyra is named after the lyre, an instrument associated with balance, harmony, and gentle rhythm — qualities reflected in both its form and function.

Designed to move lightly and operate quietly, the Lyra Portable Fan combines a lightweight frame with a natural wooden handle for effortless portability. Its smooth, unobtrusive airflow creates a gentle, refreshing breeze, while adjustable positioning allows comfort to be directed with ease.

Calm, balanced, and elegantly designed, Lyra brings understated comfort to everyday moments.

Colour, balance, and 360 degree movement.

Available in Space Grey, Lunar White, Olive Green, and Burnt Peach, Lyra's soft, considered colour palette is designed to suit any setting.

With a fan head that rotates freely through 360 degrees within its frame, Lyra offers complete flexibility in placement and direction.

Balanced, adaptable, and quietly elegant, it brings refreshing comfort wherever it's needed.

Opal Drift Light

Light that can drift with your
Imagination.

Named after the opal gemstone, known for its soft, luminous glow, Opal Drift Light reflects light that feels layered, gentle, and alive. Its calm, diffused illumination and fluid movement bring warmth and quiet beauty to any space.

Opal is an interactive ambient light that invites you to guide and shape illumination by hand.

Within its softly curved and smoked glass form, a magnetic LED light strip drifts in response to a wooden magnet, creating fluid, glowing lines that change with every movement.

Crafted from smoked glass and natural wood, it brings calm, warmth, and quiet beauty to any space.

A study in material, form, and atmosphere

The softly tinted glass reveals and reflects its surroundings, while the warm glow within creates subtle layers of light and shadow. Each movement of illumination feels gentle and unforced, adding depth and character to the space around it.

Balanced with a solid natural wood base, the contrast between smooth glass and tactile timber brings a sense of calm and authenticity. Whether placed alone or paired together, Opal creates an intimate, ambient presence — one that feels warm, considered, and quietly expressive.

Rather than demanding attention, it settles naturally into its environment, offering light that feels atmospheric and reassuring. Designed to complement moments of rest, reflection, and quiet living, Opal is a timeless piece made to be lived with and enjoyed over time.

G088WT
Natural Walnut Wood

G088AH
Natural White Ash Wood

Opal is designed to be experienced as an object
as much as a light

Solis Drift Light

The light that moves with your touch.

Solis takes its name from the Latin word for “sun” - the natural source of light, warmth, and life.

Like sunlight moving across a space, Solis Drift allows light to travel freely, forming gentle, flowing lines that feel calm, intuitive, and alive.

Its tall, cylindrical form emphasises vertical movement and clarity, echoing the way sunlight shifts throughout the day.

Designed as part of the Drift family, Solis transforms illumination into a quiet, interactive experience — one that brings warmth, focus, and subtle energy into the home.

A tactile moment of light

At the heart of Solis is a simple, considered gesture.

A small round wooden magnet rests lightly at the top of the glass — inviting touch, not instruction.

With a gentle movement, the magnet activates and guides the light within, transforming illumination into a quiet, almost meditative experience. There is no switch to search for, no interruption to the form — only a natural interaction that feels intuitive and human.

This subtle design detail brings Solis to life. It encourages a slower pace, a moment of pause, and a closer connection between object and user. Light responds not to a button, but to touch — making each interaction personal and deliberate.

PALM EDITION

Super Mini Smart Book Light

A design classic,
perfected page by page.

Introducing the Palm Edition – **Super Mini Smart Book Light**, the most compact expression of our best-selling design. Small enough to slip into a pocket and light enough to rest comfortably in the palm of your hand, it brings the same warm glow and familiar opening gesture to an even more personal scale.

Over the years, the design has evolved naturally, expanding into a family of sizes to suit different moments and spaces — while staying true to the original idea that made it so special.

A classic, refined for everyday carry.

Designed for life on the move, the Palm Edition is portable, and effortlessly versatile — ideal for bedside mood light, travel, or quiet moments wherever you are. Despite its size, nothing is compromised: the soft illumination, thoughtful engineering, and distinctive folding form remain unmistakably Gingko.

Inspired by the familiar form of a book, each light opens to reveal a soft, ambient glow, transforming an everyday gesture into a moment of warmth and calm. Crafted with carefully chosen materials and engineered for everyday use, the Book Light balances function and emotion — playful yet practical, compact yet expressive.

Aeris Light

A light that rises into form.

Aeris Light is inspired by air, movement, and the quiet poetry of ascent.

Designed to unfold from a compact object into a softly glowing form, it brings a sense of lightness and wonder to everyday spaces.

When opened, its sculptural silhouette echoes the gentle presence of a hot air balloon — floating, calm, and softly illuminated. Portable, dimmable, and beautifully balanced on a solid wooden base, Aeris Light is designed to move easily through the home, offering warm, atmospheric light wherever it's placed.

As the folded pages open, light expands upward, transforming the object into a glowing form that feels both playful and refined.

Designed to unfold

The hot air balloon–inspired shape is not decorative alone — it is created through movement, interaction, and intention.

The natural wooden base anchors the design, while the softly diffused light highlights the grain and texture of the material beneath. Fully dimmable and cordless, Aeri Light adapts effortlessly to different moments — from a gentle evening glow to a brighter, focused ambience.

More than a lamp, Aeri Light is an experience — one that invites interaction, slows the pace, and brings light to life through form, material, and motion.

SYLA TABLE LAMP

Adding a magic mist into any space

Sylva represents the meeting point between nature and contemporary living — where crafted wood, soft light, and thoughtful interaction come together.

The Sylva Lamp Collection combines minimalist design with versatile functionality, making it a perfect addition to modern living spaces. Inspired by nature and named after the Latin word for forest, Sylva brings warmth, tranquility, and a sense of quiet magic into your home.

Available in two sizes — Mini and Large — and two refined finishes — Walnut and White Ash, the Sylva Lamp blends timeless materials with contemporary form. Seven rotating RGB light modes create a vibrant, expressive atmosphere, while the soft white light option offers a calm, peaceful glow for everyday moments.

With intuitive touch controls, simply tap the top of the lamp to cycle through lighting options. The Large version adds an extra layer of control with its dimmable function — just hold your finger on the top to adjust the brightness to your preference.

Designed to inspire comfort, creativity, and peace, the Sylva Lamp adds a gentle magic mist to any space,

Transforming quiet moments into radiant memories.

Picture a serene setting – a quiet study, a warm bedside, or a cozy nook – lit up by the Sylva Lamp's gentle glow. For adults and dreamers alike, its versatile lighting adapts to any mood, occasion, or space. From researching late into the evening to relaxing after a long day, the Sylva Lamp stands by, transforming quiet moments into radiant memories.

SMART MOON LAMP

A design statement and
an unforgettable gift

Bring a little lunar magic home with the Gingko Smart Moon Lamp — our award-winning levitating light that combines innovative magnetic technology with quiet, timeless beauty. Suspended above its wooden base, the moon floats and slowly rotates, creating a mesmerising centrepiece for any space.

Each lamp is 3D printed to capture the moon's distinctive craters and texture, then softly illuminated with your choice of warm yellow, warm white, or cool white — perfect for setting the mood in a bedroom, living room, or workspace.

Finished with a sustainably crafted wood base in Walnut, Black, or White Ash, the Smart Moon Lamp is both a design statement and an unforgettable gift—made to spark wonder, day after day.

crafted to capture the moon's real
surface texture

A perfect replica, reimagined as light

Meticulously 3D printed to recreate the moon's surface texture, the lamp's subtle craters and contours come alive when illuminated—soft, tactile, and instantly calming.

Where science becomes atmosphere

Magnetic levitation allows the Moon to float and spin above its wooden base, creating a weightless centerpiece that feels quietly futuristic yet beautifully natural.

Smart Saturn Lamp

a mesmerizing fusion of art,
science, and tranquility.

This exquisite lamp is meticulously 3D-printed in the shape of Saturn, capturing the celestial beauty of the iconic planet with stunning detail. What sets this lamp apart is its magnetic levitation technology, allowing it to gently float above a handcrafted real walnut wood base.

The warm glow of the Saturn lamp enhances its ethereal charm, while the natural walnut wood base adds an organic touch of elegance and sophistication. Ideal for unwinding after a long day or setting a peaceful ambiance, the Saturn Floating Lamp is more than just a source of light – it is a unique work of art designed to elevate your space and promote a sense of serenity.

It floats and slowly spins
effortlessly

The Smart Saturn Lamp creates a hypnotic, calming motion that is both soothing and enchanting. The interplay of soft lighting and graceful rotation evokes a sense of wonder, making this lamp the perfect centerpiece for any modern living space, home office, or relaxation area.

AstraGlass Light

Nature's wonders, captured in light.

A universe of light in the palm of your space.

Inspired by Earth's most beautiful natural phenomena, the AstraGlobe Light brings colour, atmosphere, and quiet magic into any space. Available in two sizes and four distinctive finishes — Galaxy Breeze, Sandstorm, Polar Cloud, and Stellar Ocean — each globe creates a unique mood, from calming soft white to gently rotating RGB light.

Crafted from hand-blown and hand-painted glass, the globe sits atop a walnut wood base made from FSC-certified American wood, ensuring eco-conscious elegance. The light features two versatile modes: 7 rotating RGB lights for an ever-changing ambiance and a soft white light mode for a calming glow. The light also offers easily adjustable brightness with the intuitive copper button—tap to switch modes or hold to dim or brighten the light.

Designed to elevate everyday spaces with warmth and wonder.

Hand-blown.
Hand-painted.
One of a kind.

Each AstraGlobe Light begins as molten glass, carefully hand-blown into its signature spherical form. Once cooled, every globe is hand-painted using layered pigments and delicate swirling techniques, inspired by Earth's natural phenomena — from shifting sands to drifting clouds and deep ocean currents.

No two globes are ever exactly the same. Subtle variations in colour, movement, and texture ensure that each AstraGlobe is a truly individual piece, designed to be admired both lit and unlit.

Twist Hexagon Light

Twist to reveal the light.
Shape the atmosphere.

At first glance, the Twist Hexagon Light appears as a beautifully crafted solid walnut hexagon — calm, minimal, and architectural. With a simple twist, it transforms. The walnut case opens to reveal a softly glowing paper shade that gently unfolds and rises, creating a warm, sculptural light.

The clever folding structure allows the lamp to stand at different heights, letting you shape both its form and atmosphere. When closed, it returns to a refined wooden object; when opened, it becomes a luminous centerpiece.

Finished with an elegant copper touch button, the light is fully dimmable, allowing you to set the perfect mood with a single touch. Designed to surprise, delight, and adapt, the Twist Hexagon Light is where thoughtful engineering meets timeless material.

Hand-Folded Light, Thoughtfully Engineered

At the heart of the Twist Hexagon Light is a delicately hand-folded paper structure, crafted with precision and care. Each fold is made by hand, forming a flexible yet stable shade that expands smoothly as the lamp is opened.

This intricate folding not only creates the lamp's distinctive shape, but also allows it to stand at varying heights, holding its form naturally without additional supports. When the lamp is closed, the paper compresses neatly back into the solid walnut case, protected and unseen.

The result is a light that feels both soft and architectural — a quiet balance between craftsmanship and clever design. Every piece is handmade, making each Twist

When it's opened

When it's folded

Designed to travel,
made to glow.

MINI

Twist Hexagon Light

The Mini Twist Hexagon Light reimagines our iconic solid walnut Twist Hexagon in a beautifully compact, portable form. Designed to twist open and glow with the same sculptural warmth, this mini version brings soft ambient light wherever life takes you.

Crafted in durable ABS with refined finishes — **Walnut, Lunar White, Lagoon Teal, Coral Red, and Space Black** — it delivers the same tactile twist action and gentle illumination as the original, now in a size made for everyday carry.

Fitted with a discreet lanyard, the Mini Twist Hexagon can be folded shut and clipped to a backpack, hung in a tent, or carried effortlessly from room to room. Twist it open to reveal a warm, comforting glow; fold it closed when you're on the move.

Thoughtfully designed, endlessly versatile — this is portable light with personality, ready for home, travel, and everything in between.

Touch. Adjust. Glow.

A gentle touch on the top brings the Mini Twist Hexagon Light to life. Hold to adjust the brightness with **smooth, stepless dimming**, letting you set the mood exactly how you like it — from a soft night glow to a brighter ambient light.

Simple, intuitive, and effortless.

AtlasGlobe Lamp

Immerse yourself in the elegance and wonder of our world with the AtlasGlobe Light — a sophisticated globe lamp that seamlessly blends illumination, movement, and interactive design.

Available in two refined finishes, the AtlasGlobe Light pairs a Light Blue Globe with a White Ash base or a Dark Blue Globe with a rich Walnut base. Each finish makes it equally at home in a cosy study or a spacious living space.

Resting on an ingeniously engineered base, the globe is supported by three precision metal balls, allowing it to rotate freely and effortlessly. This subtle yet captivating movement adds an interactive dimension, transforming the AtlasGlobe Light into both an engaging educational piece and a striking decorative object.

A Globe That Moves, A Light That Inspires.

A globe that changes character when the light comes on.

From refined object to glowing world

When switched off, the AtlasGlobe reveals a calm, minimalist world — continents and countries rendered in soft white, resting elegantly on a White Ash wood base.

Switch it on, and the globe transforms. Nations and continents glow in subtle, shifting colours, bringing the world to life in a moment of quiet wonder. A striking contrast between stillness and illumination — designed to be as captivating by day as it is by night.

Smart LunaSpin Lamp

A Moment of Lunar Magic
Designed to glow, spin,
and fascinate.

The Smart LunaSpin Lamp brings the quiet wonder of the moon into your home. Meticulously 3D printed to capture the moon's surface in fine detail, it emits a soft, atmospheric glow that feels both calming and mesmerising.

Resting on a beautifully crafted walnut wood base, the moon gently floats and spins through advanced magnetic technology, wirelessly charging as it rotates. Lift the moon from its base and place it on any surface — or even in the palm of your hand — and it continues to spin slowly, creating a moment of pure fascination.

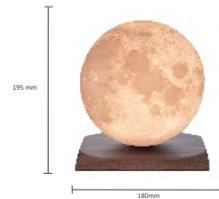

A seamless blend of design, innovation, and poetry, the Smart LunaSpin Lamp is more than a light — it's an experience, inviting you to hold the moon and watch it come to life.

Take the Moon With You

**A softly spinning light,
free to move wherever you are.**

Lift the moon from its base and it continues to spin gently in your hand, on a table, or any surface you choose. Untethered and serene, it brings a quiet sense of wonder wherever it rests — inviting you to pause, hold the moment, and watch the moon turn.

Amber Crystal Light

the Amber Crystal Light is designed to inspire, enchant, and illuminate any space.

The Amber Crystal Light transforms light into art. At its heart sits a beautifully 3D laser-engraved crystal sphere, precision-etched with intricate designs that appear to float within the glass. Resting on a finely crafted walnut wood base, warm light is projected upwards, bringing each engraving vividly to life.

Available across a curated range of themes — from the vast wonder of Space, the quiet beauty of Nature, the spirit of Adventure, to the passion of Sports — each crystal tells its own story. When illuminated, the engravings shimmer with depth and detail, creating a captivating focal point that feels both modern and timeless.

A seamless blend of craftsmanship, technology, and imagination, the Amber Crystal Light is designed to inspire, enchant, and illuminate any space.

An Illuminated Sculpture Inspired by
Chinese / Japanese Origami.

Smart Origami Lamp

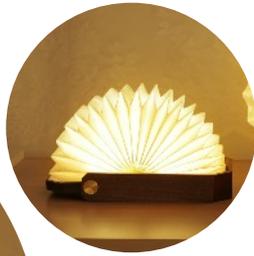

The Smart Origami Lamp is more than a light — it is a sculptural fusion of art, design, and technology.

Crafted in elegant Walnut or Bamboo natural wood, it brings warmth and sophistication to our living space.

Made from tear-proof, water-resistant Tyvek paper, the lamp is designed to age beautifully while remaining durable. As it gently unfolds, a warm LED glow is revealed, transforming form into function. Magnetic covers allow the lamp to open up to a full 360°, letting you shape the light to suit your mood and setting.

Rechargeable and completely cordless, the Smart Origami Lamp offers total freedom of placement. Whether resting on a surface or carried by its handle, it is as versatile as it is beautiful — a modern lighting piece that invites interaction and elevates everyday moments.

One lamp, many forms.

The Smart Origami Lamp invites you to play, reshape, and

Designed to move with you, the Smart Origami Lamp transforms effortlessly into multiple sculptural forms. From a compact book-like shape to a radiant fan, arc, or full circular bloom, each configuration offers a different expression of light and character.

Thanks to its magnetic covers and flexible origami structure, the lamp opens and folds smoothly to suit any setting or mood. Stand it upright, lay it flat, curve it gently, or open it fully — the possibilities are intuitive and endlessly creative. Each shape casts light in a unique way, turning illumination into an interactive experience.

Alice

Mushroom Lamp

Bring a Touch of Magic
to Your Everyday
Wonderland.

Inspired by Alice in Wonderland, the Alice Mushroom Lamp brings a soft, magical glow to everyday spaces.

Its sculptural mushroom form adds character and warmth, making it as decorative as it is functional.

A simple copper touch control lets you cycle through seven ambient RGB colours or select your favourite shade, allowing the light to adapt effortlessly to your mood. Crafted with a solid Walnut or White Ash wood base and a smooth white diffuser, the lamp has a reassuring weight and premium finish.

Three Sizes. One Magical Glow.

The Alice Mushroom Lamp is available in three sizes, each designed to suit a different space. The Super Mini adds a subtle decorative glow, the Mini is perfect for bedside tables and desks, and the Large version offers a brighter light and a bold, sculptural presence.

The Super Mini and Mini are rechargeable, providing up to 18 hours of cordless use, while the Large is mains powered for consistent illumination. Across the range, intuitive touch control and soft RGB colour-changing light allow you to create the perfect mood with ease.

Pentagon

Portable Bulb
Lamp

Up to 32
hours
battery life
per charge.

Lighting can transform a space. With its minimalist silhouette and soft, sculptural glow, the Pentagon Desk Bulb adds warmth and character—without ever feeling overdone.

Tap the wooden top to switch between warm white and 7 rotating soft RGB colours. Need a softer ambience? Press and hold to dim.

Designed to stand on either the wooden base or the glass body, the Pentagon Desk Bulb can be styled upright or on its side—turning everyday lighting into a small statement piece.

Diffused Through Premium Frosted Acrylic Glass

Tap the wooden top to switch between warm white and 7 rotating soft RGB colours. Need a softer ambience? Press and hold to dim.

Lemelia

Night Light

Named after our daughter Amelia and son Lewis

A tiny glow with a big calming effect. Lemelia is our smallest portable light—made for bedtime, quiet moments, and gentle night-time comfort.

Named after our daughter Amelia and son Lewis, Lemelia brings together the warmth of family and a clean, minimalist form. It's rechargeable and travel-ready (USB-C), so you can pop it on a bedside table, keep it in a child's room, or take it away for nights somewhere new.

Tap to switch between warm white and 7 softly rotating RGB colours, then press and hold to dim—perfect for winding down and easing into sleep.

Designed for the quiet hours and easy travel

Minimal in form, comforting in feel. Lemelia's diffused glow is soft on sleepy eyes, with simple touch control for warm white or gentle colour. Small enough to take anywhere, beautiful enough to leave out.

**Touch control • Warm white / soft RGB • USB-C rechargeable • natural wood

Smart DIFFUSER Lamp

A warm glow. A gentle scent.
One beautifully simple object.

The Ginkgo Diffuser Lamp softly heats your chosen essential oil on an integrated copper plate, releasing fragrance slowly and silently while the lamp creates a calm, ambient light. With a discreet touch sensor in the wood, you can move through three brightness levels and choose to run the diffuser at the same time.

Crafted from natural sustainable wood with a frosted acrylic shade that feels smooth and comforting to the touch, it's finished with a built-in rechargeable battery—so you can carry that cosy feeling from room to room.

Light, scent, and calm—beautifully combined

Slow fragrance. Soft light.

At the heart of the Diffuser Lamp is a discreet copper warming plate. Add a few drops of your favourite essential oil and it gently warms to release scent silently and gradually—perfect for evenings, wind-down routines, or quiet focus during the day.

The warm light is diffused through a high-quality frosted acrylic shade for an even, comforting glow, while the natural wood body brings warmth and tactility to any space.

Touch control

A built-in copper touch sensor lets you cycle through three brightness levels, with the option to run the diffuser at the same time.

Portable by design

With an in-built rechargeable battery, it moves easily from bedside to living room, workspace to bathroom—wherever you want atmosphere.

SMART BATON LIGHT

Timeless design crafted in natural
Wood meets intelligent illumination

The Ginkgo Smart Baton Light is a refined, motion-activated LED wall light designed for modern living. Crafted from sustainably sourced natural wood and softly diffused acrylic, it delivers warm, ambient illumination exactly when you need it — no switches, no wiring, no clutter.

Magnetically attached yet fully portable, the slim light bar lifts effortlessly from its wooden base to become a handheld lamp or torch. Whether guiding you through hallways at night, lighting a bedside read, or adding discreet glow under cabinets, the Smart Baton Light adapts seamlessly to every space.

Minimal in form, thoughtful in function, and consciously made, it's lighting that feels as good as it looks.

A motion-sensor, rechargeable light for effortless everyday living.

Most motion sensor lights are made from plastic and designed to be hidden. But the Gingko Smart Baton Light is designed to belong.

Crafted from FSC-certified natural wood and softly diffused acrylic, it delivers a warmer, more refined glow than typical mass-market alternatives — enhancing interiors rather than disrupting them.

Unlike the flooded plastic motion sensor light, the Smart Baton Light is fully rechargeable, **offering up to 6 months** of use on a single charge in motion sensor mode. Its magnetic, detachable design allows the light to be lifted effortlessly from its base and used as a portable lamp or torch, then returned to recharge.

Minimal in form, sustainable in material, and intelligent in function, it transforms everyday motion lighting into a

Smart Accordion Lamp

A sculptural light that opens, transforms,
and connects.

Inspired by the elegant form of an accordion, the Gingko Smart Accordion Lamp is a striking fusion of design, movement, and light. With a simple pull, it unfolds into a glowing sculptural form, emitting a soft, ambient LED light through its beautifully crafted accordion-style pages.

Designed with magnetic covers on both ends, the lamp opens to a full 360 degrees and can be connected to multiple units to create a unique, expandable light sculpture. Fully rechargeable and cordless, it moves easily from room to room, while the included lanyard allows it to be hung wherever light is needed.

Playful yet sophisticated, portable yet architectural, the Smart Accordion Lamp reflects Gingko's design philosophy — creating functional lighting that delights, adapts, and lasts.

A Light You Interact With

Fun, Joy, Calm, Inspiring

The Gingko Smart Accordion Lamp transforms through movement. Opening and closing the lamp changes both its shape and its light, creating an intuitive and playful lighting experience without switches or buttons.

Precision laser-cut natural wood panels open smoothly to a full 360 degrees, revealing a soft, ambient glow that adds warmth and atmosphere to any space. When closed, the lamp becomes a sculptural wooden hexagon — a design object even when unlit.

Magnetic end panels allow multiple lamps to connect together, enabling users to create their own expandable light sculpture. Fully rechargeable and cordless, it is designed to move freely around the home or be hung wherever light is needed.

A perfect balance of function, form, and imagination.

Velvet Smart Accordion Lamp Special Edition

Soft to the touch, rich in detail,
and designed to glow beautifully.

The Gingko Velvet Smart Accordion Lamp – Special Edition reimagines the iconic accordion design with soft velvet covers and distinctive pattern artwork. Combining tactile materials with warm ambient light, it brings depth, character, and elegance to modern interiors.

Opening smoothly to a full 360 degrees, the lamp transforms from a refined decorative object into a glowing light sculpture. When closed, it remains a beautifully understated design piece; when opened, it fills the space with a soft, inviting glow that highlights each unique pattern.

Available in three special designs — **Brown velvet with Zebra pattern, Blue velvet with geometric design, and Grey velvet with world landmark illustration** — each lamp offers its own visual story while sharing the same thoughtful, rechargeable, and cordless design.

A refined blend of texture, light, and artistry, created to be opened, admired, and enjoyed.

Designed to Delight Every Imagination

Wrapped in soft, premium velvet, the Velvet Smart Accordion Lamp adds warmth, texture, and character to the iconic design. Smooth to the touch and rich in colour, the velvet finish invites interaction and makes the lamp especially engaging for younger users.

Each pattern is designed to spark a different sense of curiosity and joy.

The Zebra design brings playful energy and is perfect for children's rooms and creative spaces.

The Geometric design appeals to budding architects and design lovers, with its bold, structured rhythm.

The World Landmark design inspires curiosity and storytelling, ideal for young explorers and travellers at heart.

When opened, the glowing accordion pages transform these patterns into a soft, comforting light, creating an atmosphere that feels both fun and calming.

SMART BOOK LIGHT

- A design object with the WOW factor -

**Best Sellers
Since 2016**

SMART BOOK LIGHT

A book by day, a sculptural light by night.

The Ginkgo Smart Book Light is a timeless design that blurs the line between object, art, and illumination. Inspired by the familiar form of a book, it transforms everyday lighting into a moment of surprise, warmth, and wonder.

When closed, it appears as a beautifully crafted wooden book, precision laser-cut from natural maple or walnut. Open it, and the pages come alive — unfolding into a glowing sculpture that emits a soft, ambient LED light. The gentle illumination radiates through the finely layered pages, creating a calming atmosphere that feels both intimate and magical.

Designed to open effortlessly to a full 360 degrees using discreetly concealed magnets, the Smart Book Light can be shaped and displayed in countless ways. Its durable, soft-touch Tyvek pages are tear-resistant and water-resistant, allowing the light to be enjoyed freely throughout the home.

Hand-assembled with care and fully rechargeable, this is a design that invites interaction, sparks curiosity, and brings warmth to any space — a modern classic that never goes out of style.

Smart Book Light Wood Edition

Timeless craftsmanship, inspired by nature.

The Wood Edition of the Gingko Smart Book Light celebrates natural materials and traditional craftsmanship. Precision laser-cut from sustainably sourced maple or walnut, it brings warmth, texture, and authenticity to any interior.

OCTAGON ONE

Desk Light

A refined desk light where work, design, and elegance meet.

The Ginkgo Octagon One Desk Light is an award-winning design that brings sculptural beauty to everyday work and study. Defined by its distinctive octagonal wooden base and clean, minimalist form, it is a desk light designed to be seen as much as it is used.

Crafted from sustainably sourced natural wood and paired with a precision-cut matte acrylic diffuser, the Octagon One delivers a warm, focused glow while maintaining a calm, elegant presence. Its thoughtful proportions and natural materials allow it to sit effortlessly within modern interiors — from home offices and studios to bedside tables and reading corners.

Cordless, rechargeable, and beautifully balanced, the Octagon One proves that practical lighting can also be timeless, tactile, and design-led.

Intelligent lighting
that adapts to how you
work, read, and live

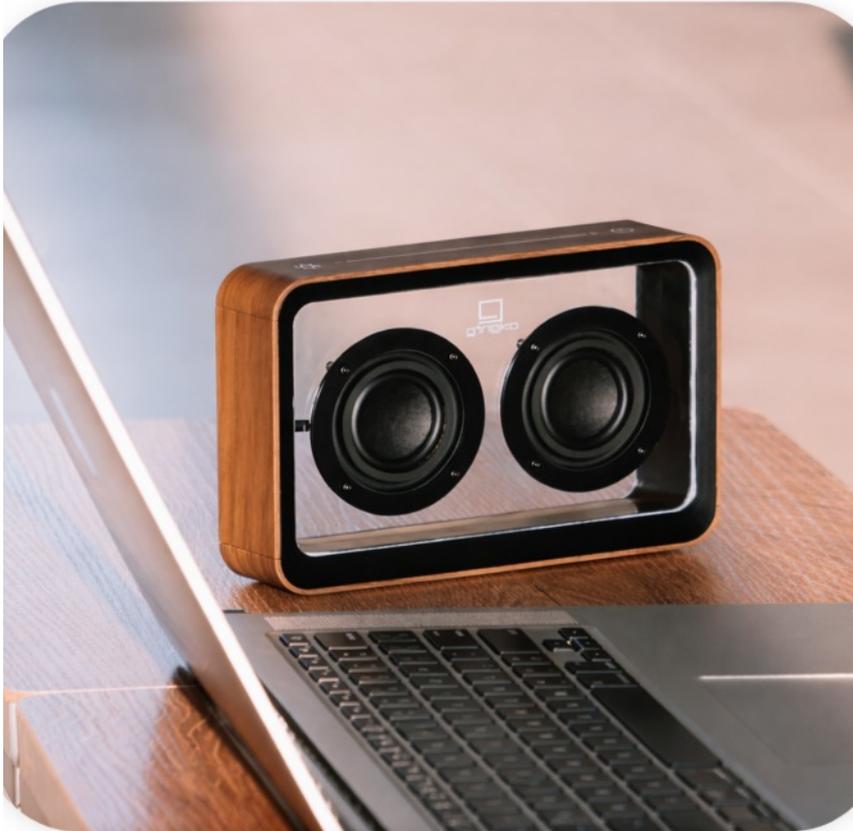

Focused light, flexible form,
effortless control

The Octagon One is Gingko's dedicated desk light — **created specifically for working, crafting, studying, and reading** with comfort and clarity. Its clever pivoting design allows the lamp to be positioned across four different angles, offering precise control over light direction without visual clutter.

Touch-sensitive controls integrated into the base allow effortless adjustment between four brightness levels, while long-life warm white LEDs provide flicker-free illumination that is gentle on the eyes. Fully cordless and USB rechargeable, the Octagon One **offers up to 72 hours of light on a single charge**, keeping desks clear and workspaces flexible.

Mage See-Through Bluetooth Speaker

Where sound meets transparency
and modern design.

The Gingko Mage See-Through Bluetooth Speaker transforms everyday audio into a visual and sensory experience. With its **striking transparent front** and refined material finishes, it is designed not just to be heard, but to be admired.

Encased in a beautifully balanced frame and available in **Matte Black, off white or Walnut wood**, the Mage Speaker reveals its internal structure through clear acrylic, turning sound into something you can see and feel. Powerful, well-balanced audio fills the space while the sculptural form adds a bold yet elegant presence to desks, shelves, and side tables.

Minimal, expressive, and immersive, the Mage Speaker is a statement piece for modern interiors — blending performance, craftsmanship, and contemporary design.

Designed to Be Seen, Heard, and Felt

A transparent design enhanced by light, movement, and mood.

At the heart of the Mage Speaker is its transparent acrylic window, offering a rare glimpse into the beauty of its internal mechanics. As music plays, subtle vibrations bring the design to life, creating a deeper physical connection between sound and form.

A softly dimmable warm yellow light glows beneath the top surface, adding atmosphere without distraction. Whether used as ambient lighting in the evening or a gentle backdrop during listening, the light enhances the speaker's mood-setting character.

Designed for intuitive interaction, the Mage Speaker features **touch-controlled volume adjustment** and **the ability to pair two speakers wirelessly** for an expanded stereo experience. The result is a speaker that engages multiple senses — sound, sight, and touch — in one cohesive design.

DRUM LIGHT Bluetooth Speaker

Drum Light

Bluetooth Speaker

Soft light, rich sound, and natural design in perfect rhythm.

The Ginkgo Drum Light Bluetooth Speaker is a beautifully balanced fusion of ambient light and wireless sound. Designed for modern, relaxed living, it combines a warm LED glow with clear 360° audio in one compact, sculptural form.

Crafted from FSC-certified natural wood and topped with a softly frosted acrylic diffuser, the drum-shaped design creates a calm, inviting atmosphere while filling the space with music. Two warm light levels allow you to set the mood effortlessly — from gentle evening ambience to relaxed social settings.

Portable, rechargeable, and thoughtfully made, the Drum Light Speaker brings together sound, light, and natural materials in a design that feels as good as it looks.

Designed to Move, Designed to Respond.

A playful interaction that turns movement into light and control.

The Gingko Drum Light Bluetooth Speaker is designed to respond naturally to how it's used. Simply roll or turn the drum, and the light intuitively switches on or off — transforming movement into a tactile, playful experience.

A discreet aluminium support is seamlessly integrated into the wooden body, allowing the speaker to rest at the perfect angle while playing. This clever detail ensures the sound output remains clear and unobstructed, while also preventing the drum from rolling too far once positioned.

When laid flat, it becomes a glowing ambient light. When supported at an angle, it delivers rich sound with character and presence. Every interaction feels intentional, simple, and satisfying — no buttons, no distractions.

MI SQUARE

Portable Travel Speaker

MI SQUARE TRAVEL SPEAKER

Designed to move with you, styled to be seen.

The Ginkgo Mi Square Bluetooth Speaker is a compact sound companion made for life on the move. Small enough to slip into a bag yet distinctive enough to stand out, it delivers rich, balanced audio in a perfectly proportioned wooden square.

Crafted from solid natural wood and finished with a vegan-friendly leather lanyard, the Mi Square is designed to travel effortlessly — clipped to a backpack, carried by hand, or placed on a desk when you arrive. Its lightweight form and tactile materials make it as enjoyable to hold as it is to listen to.

With simple Bluetooth pairing, USB-C charging, and impressive sound for its size, the Mi Square blends portability, sustainability, and everyday style. Whether you're commuting, exploring, or working remotely, it's a speaker that goes wherever you go — naturally and effortlessly.

Natural materials that enhance both sound and experience.

The Ginkgo Mi Square Bluetooth Speaker is crafted from solid natural wood for a reason. Unlike plastic housings, **wood naturally absorbs unwanted vibration** and enhances resonance, resulting in **warmer, clearer, and more balanced sound**.

This solid wooden body gives the speaker both acoustic stability and tonal depth, allowing music to sound fuller and more refined despite its compact size. The weight and density of the material also reduce distortion, ensuring sound remains clean and controlled at everyday listening levels.

Beyond performance, the wood adds a tactile warmth and character that synthetic materials simply can't replicate. Every piece feels unique, ages beautifully over time, and reflects Ginkgo's belief that better materials create better experiences — visually, physically, and acoustically.

Tumbler

Selfie Portable Speaker

Big Sound, Small Sphere

A compact, rounded form engineered to deliver powerful, room-filling sound.

Designed to Move and Play

The playful ball shape naturally rolls, rocks, and fits perfectly in the palm.

A Speaker That Takes Your Photo

Built-in selfie remote lets you tap the speaker to capture photos hands-free.

Tumbler

Selfie Speaker

Tap the speaker. Take the photo.
Stay in the moment.

The Gingko Tumbler Selfie Speaker makes capturing the perfect photo effortless. With a built-in selfie remote, it lets you take pictures hands-free — no stretching, no rushing back to the camera, no awkward button presses. Simply tap the speaker and your phone captures the moment.

Designed for group shots, travel memories, and everyday creativity, the Tumbler Speaker keeps you fully in the frame while you stay relaxed and natural. Whether it's a selfie, a couple photo, or a spontaneous moment with friends, one gentle tap is all it takes.

At the same time, it delivers clear, immersive sound in a compact, rounded form that fits comfortably in the hand. Music, photos, and movement come together in a single playful design — made for people who love to share moments as much as they love sound.

Lumos Clock

A warm glow that quietly keeps time

A softly glowing clock designed to calm your space and your senses.

The Ginkgo Lumos Clock reimagines the digital clock as a warm, design-led object for modern living. Crafted from natural wood and finished with a soft fabric front, it allows the time to gently shine through — visible, elegant, and never intrusive.

Minimal by day and quietly intelligent by night, the digital display can be set to **remain permanently on or activated only when needed**. With a simple clap, tap, or touch, **the time appears through the fabric, then fades away again** — keeping your space calm and uncluttered.

Available in **Oval or Square forms** and finished in Walnut or White Ash, the Lumos Clock blends seamlessly into bedrooms, shelves, and bedside tables. It's a refined balance of technology and tranquillity — designed to be noticed only when you want it to be.

G076O-WT

Oval

Gentle light, simple touch controls, and a calmer way to start the day.

Beyond telling time, the Lumos Clock functions as a **beautifully soft night light**. A warm internal glow radiates through the natural wood, offering **three adjustable light levels** that create a soothing ambient atmosphere — perfect for evenings, night-time comfort, or early mornings.

When the alarm sounds, interaction is instinctive and effortless. A gentle tap on the wooden top activates snooze, while holding it down turns the alarm off completely — no bright screens, no searching for buttons. The light can be switched on manually to ease you into the day with a soft, calming glow.

Thoughtfully **USB-C rechargeable** and finished with a protective base mat, the Lumos Clock is designed to support better rest, gentler mornings, and more mindful moments throughout the day.

Flip Click Clock

The iconic alarm clock controlled by a simple flip.

The Ginkgo Flip Click Clock is a modern design classic that transforms the everyday alarm clock into an intuitive, playful object. Crafted from natural wood and finished with clean, minimalist lines, it brings character, warmth, and intelligence to any bedside, desk, or shelf.

Designed to respond naturally to touch and movement, the LED display appears only when needed — activated by a tap, clap, or gentle click. Flip the clock over and the alarm instantly turns on or off, clearly marked on each side for effortless use. No buttons, no confusion — just simple, satisfying interaction.

Available in a range of contemporary finishes and powered by rechargeable battery or USB, the Flip Click Clock blends Scandinavian-inspired design with practical everyday functionality. Loved worldwide and awarded 2019 Gift of the Year, it is a timeless piece that continues to surprise, delight, and endure.

A Clock That Listens, Moves, and Responds

Simple gestures that turn timekeeping into an experience.

The Ginkgo Flip Click Clock is designed around one intuitive idea: control through movement. Instead of buttons or screens, the alarm is activated simply by flipping the clock over. Turn it to the ON side and the alarm is set; flip it again to OFF and it's instantly silenced — clear, logical, and deeply satisfying.

The digital display remains hidden until you need it. With a gentle tap, clap, or click, the time appears momentarily, then fades away, keeping your space calm and uncluttered. This sound-activated display is perfect for night-time use, offering visibility without harsh, constant light.

Every interaction feels deliberate and effortless — a quiet moment of delight that transforms a daily routine into something memorable. It's not just a clock you look at, but one you engage with.

The Ginkgo Cube Click Clock is **the original design that marked the beginning of Ginkgo.**

Sculpted into a perfect cube and finished in smooth natural wood, it is a minimalist object that brings form, function, and quiet intelligence together.

With a sound-activated LED display, the clock stays visually calm until needed. **A gentle tap, clap, or click reveals the display,** which alternates between time, date, and indoor temperature, before fading away again to keep your space uncluttered.

Designed for bedside tables, desks, and shelves, the Cube Click Clock reflects Ginkgo's founding philosophy — creating beautifully simple objects that respond naturally to everyday life. ***Timeless, intuitive, and instantly recognisable, it is more than a clock; it is where the Ginkgo story began.***

CUBE CLICK CLOCK

The iconic cube that started it all.

A Pure Form That Never Dates

Timeless cube geometry, designed to belong anywhere.

The Ginkgo Cube Click Clock is defined by its perfectly balanced cube form — **a shape that feels instinctively right in any space**. Clean lines, equal proportions, and solid presence give the clock a quiet confidence, allowing it to sit effortlessly on desks, shelves, and bedside tables.

Its geometric simplicity ensures the design **never competes with its surroundings**. Instead, it complements them — modern yet warm, minimal yet characterful. The cube form also allows the clock to be viewed from multiple angles, making it a natural fit in both contemporary and classic interiors.

BRICK

Click Clock

The iconic Click Clock, reimagined with a bolder presence.

The Gingko Brick Click Clock takes the much-loved Cube Click Clock and expands it into a striking, architectural form. With the same intuitive sound-activated display and smart functionality, it offers everything users love — just in a **larger, more commanding size**.

Shaped like a solid brick and crafted from wood-effect, the Brick Click Clock makes a confident statement on desks, shelves, and sideboards. The LED display alternates between time, date, and indoor temperature, remaining hidden until activated with a simple tap, clap, or click — keeping your space calm and uncluttered.

Designed for those who want the familiar Gingko experience with greater visual impact, the Brick Click Clock blends minimalist design with everyday intelligence. Bigger in scale, stronger in presence, yet just as effortless to use.

A larger form for spaces that call for presence.

Ideal for shelves, desks, sideboards, and communal spaces, the larger format makes the time easier to read at a glance while maintaining the calm, sound-activated display that defines the Click Clock family. The display remains hidden until needed, preserving a clean, uncluttered aesthetic even in more open environments.
